

ENVIRONMENTAL ACCREDITATION

ISO14001 – ENVIRONMENTAL MANAGEMENT SYSTEM

- Environmental responsibility and compliance
- Continual process improvement, review and compliance with environmental legislation.
- Commitment to operating and maintaining a green & clean environment.
- Prevention of pollution.

SUSTAINABLE GREEN PRINT

- Print industry's environmental certification program.
- Compliments and adds to our FSC & ISO14001 accreditations

What does this mean for our clients?

ISO 14001 creates a platform for an effective and socially responsible Environmental Management System, it is the most recognized and developed of its kind in the world. Our Sustainable Green Print accreditation works in tune with the ISO 14001 system and it is specific to the print industry.

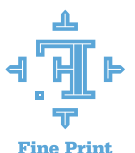

By partnering with the Eckersley Group you can be assured that you are partnering with an environmentally responsible manufacturer.

We are also members of Two Sides, an organization that is committed to promoting the responsible production and use of paper and print. Here are some facts sourced through Two Sides we thought you may be interested in.....

- ✦ 95% of Australian households recycle/reuse their paper products!
- ✦ In a multimedia world, paper and print may be the most sustainable way to communicate.
- ✦ 100 Google searches is equivalent to burning a 60w light bulb for 28 minutes.
